After a long-term, successful speaking career, it was time for a re-boot. The coaching program helped me develop significant spin-off business from my speaking that resulted in two **major contracts worth over \$750k**. I highly recommend it!

I finally understand how to drive **huge numbers on FB**, got clarity on what is really resonating with my audience and how important creating a bigger platform is to help my next book. The most valuable thing was the business strategy that can help me get even more speaking gigs.

Thank you for hosting an awesome workshop. I learned so much!! You guys have an **amazing program**. Pure gold. It's going to **help so many people** do good work in the world. I'm still on a bit of a high from it. Going from 200 to 30k followers has been nothing short of amazing!!! My plan is to grow it to 100k in the next few months.

I've been known as the coach's coach. My clients are C-level executives, celebrities and pro athletes. I've coached Phil Jackson, Ty Lue and Steve Kerr whose teams have gone on to win 11 NBA championships. Pro athletes and top executives invest in coaching and successful speakers need to invest in coaching, too.

Jill's expert coaching was comprehensive. She helped me with my message, positioning, content and business strategy. I've gone from being one of the best-kept secrets for leaders to being **an in-demand, international speaker**. Brendan is brilliant at digital strategy and getting incredible results. He's able to get huge visibility AND real engagement for clients. No program out there offers the deep experience Jill and Brendan have.

Jill, you were amazing. Thank you for sharing your wealth of knowledge. We loved your ability to coach in the moment using relevant examples and personal stories. We found Brendan and team **extremely knowledgeable with great information to share**. We learned how to identify a social media approach that is aligned with our values that we can implement while establishing credibility with our followers. We appreciated the engagement of the group. What a **wonderful group of people**. Thank you for creating space for great connections and learning.

What was most memorable is how to leverage pieces of content to get on bigger stages. I loved the implementation time to work through, share and brainstorm the structure and articulation of things. It was also really helpful to see the **demonstration of content strategy** all the way through the process from coming up with the content, creating it and sharing it. Thank you!
